

Steven,

Thanks for providing a good starting point for specs/equipment.

All,

The complete solicitation went out today. Quotes are due this Monday at noon (see attached for more details).

It's a tight turnaround, but we could potentially start work as early as Tuesday.

**Subject:** IAS Checklist and Attachments for Terwilliger Fire Danger Tree Contract

I am hopeful this is sufficient for what you need. Fortunately I did get a hold of Galen Anderson and he is willing able to be COR on this contract. Attached is his certificates. Let me know if there is anything else I can do to help this move forward as quickly as possible.
